ABOUT ME

My name is Çağatay Tupur, and I was born on July 9, 2003. I am originally from Çanakkale, but I have been living in Çerkezköy for the past 6 years. I completed my high school education in the English department, where I refined my language skills. After high school, I developed a keen interest in game development and enrolled in the Computer Programming program at Uludağ University in Bursa. My fascination with computers dates back to my childhood, and over the years, I actively sought various opportunities to apply and enhance my skills. Through diverse professional experiences, I have cultivated a propensity for teamwork and demonstrated a disciplined work approach. I approach tasks with dedication and hold a strong belief in my abilities to deliver results. I am confident in my capacity to contribute effectively to collaborative projects and thrive in a team oriented environment. My enthusiasm for the software industry drives my desire to continually enhance my skills. I am eager to immerse myself in the dynamic field of software development, aspiring to make meaningful contributions and further elevate my proficiency in the sector.
